Building Inclusive Hockey in Seattle

The Seattle Sea Otters is a new adaptive hockey program for youth and adults with disabilities.

After a successful launch in July, we're gearing up for our first full season and we need your support to keep it accessible for all.

Why It Matters

We serve kids and adults of all abilities, including many with limited access to recreational sports

\$10,000+ = full cost for one season

\$600/hour = cost of ice time at Kraken Community Iceplex

We never turn players away due to disability or financial need
